IMPORTANT TO ALL WHO USE

Steam as a Motive Power,

AND DESIRE

Safety and Great Economy.

AN opportunity is now offered to all whom it may concern to secure the exclusive right of manufacturing using and vending in States and counties,

IRVING'S

Circulating Safety Steam Boiler,

for Portable and Stationary Engines Locomotives Marine Boats River Lake and Ocean Steamers, &c — Pennsylvania, and this Boiler over all others now in use are

1—ENTIRELY SAFE FROM EXPLOSION, being more liable to explode than an open cauldron

2—It will use ONE THIRD the amount of fuel required to generate the steam obtained by ordinary boilers of the same power

3—The cost of construction is reduced ONE HALF

4—They occupy but ONE THIRD the space of ordinary boilers and may be applied to any purpose where

5—The expense of Furnace Grates will be inevitably lessened by the small amount of fuel required and the manner of using it

6—Insurance GUARANTEED the reality of the above advantages The conclusions are based upon ACTUAL RESULTS many of these Boilers now in use in and about this city The invention has but recently succeeded after years of application in bringing this valuable invention before the public It stands alone and independent in its merits and if it had the qualities claimed which are undeniable the public will at once acknowledge its superiority over any other motive power

Terms of sale made known on application at the office of the IRVING STEAM BOILER COMPANY corner of Broadway and Park place New York over the New Broadway Bank

Circulars containing terms of sale &c will be ordered by mail, if requested, address as above

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Sheet, . Boston.

IMPORTANT INFORMATION TO INVENTORS The subscriber (late Agent of the U S Patent Office, under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others has made arrangements whereby our applications prepared and conducted by him THIRTY DOLLARS [instead of *twenty*, as paid back by others] will be remitted by him in case of failure to obtain a patent and the withdrawal through him within thirty days after the rejection Caveats Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters re, cting inventions, and infringements of patents

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice and have a library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington the usual great delay there as well as all personal trouble in obtaining their patents Copies of claims of any patent furnished by remitting *one* dollar Assignments recorded at Washington

R. H. EDDY,

Solicitor of Patents

During the time I occupied the Office of Commissioner of Patents R H Eddy Esq of Boston, did business at the Patent Office as Solicitor of Patents There were few if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most successful Patent Solicitors in the United States and have no hesitation in assuring those who may think they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office

EDMUND BURKE

Late Commissioner of Patents

PATENT OFFICE

R H EDDY Esq Boston, Mass

Boston, March 10 1853 to Sept 53

N. England Truss Manufactory

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467,

BOSTON.

ALL the various approved trusses constantly for sale Ladies waited on by Mrs CAROLINE D FOSTER, who has had twenty years experience in the business

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 4th opposite to the subscriber's residence 467 where she will keep a full supply of Ready Made Trusses for Gentlemen and Ladies, Youths and Infants Abdominal Supporters of five or six different kinds and such as Hollis Chapin's Spinal, Cutter's, Fitch's, Ingalls's, &c &c

☞ Ladies waited upon by Mrs Caroline D. Foster at the above place

The following certificate from Dr John C Warren of Boston, was given 16 years since, but will last forever

BOSTON January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles

JOHN C WARREN M D, Boston

CERTIFICATE The following certificate is from Professor Stuart, of Andover Theological Seminary

The undersigned having occasion to employ Mr J Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints Mr Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article

The numerous testimonials which he has received, together with the recommendations of that eminent Surgeon, Dr J C Warren, is a sufficient guaranty for all who may favor Mr F, that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. MOSES STUART.

Rich Millinery Goods.

MRS. R. JORDAN,

No 46 Main Street,

Would acquaint her customers and the public generally that she has just returned from New York with a splendid stock of

Millinery Goods, &c.,

and on FRIDAY, May 6th will open for public inspection a beautiful assortment of

Fancy Silk & Straw Bonnets,

got up and trimmed in the latest Paris style The Ladies of Bangor and vicinity are respectfully invited to an examination of the same

☞ Straws manufactured and thoroughly cleansed pressed and finished in beautiful style at the usual prices may5 d&w

BOUNTY LANDS, PENSIONS, &c.

THE subscriber is prepared to obtain Bounty Lands for every Officer and Soldier who has served one month or upwards in any war of the United States since 1790

All who were in the Aroostook War are entitled to Bounty Land for that service

The widows or minor children of deceased officers or soldiers are entitled to the same amount of Bounty land the officer or soldier would be, if living

Widows and minor children of deceased Aroostook officers or soldiers are all entitled to Bounty Lands

Pensions for all widows of Revolutionary officers or soldiers obtained by virtue of an act of Congress passed Feb 3d, 1853 This act includes all whether married since or before the year 1800

Pensions for all officers or soldiers who have been (at any time) wounded or disabled or contracted disease, while in the line of their duty can be obtained for life for such officer or soldier, and in case of death, five years pension for their widow or minor children

☞ Five years additional pension can be obtained for widows and orphans who have been pensioned under the acts of July 21st, 1848, and Feb. 22d, 1849

☞ Parties in every part of the State (or elsewhere) having claims for land, or pensions (or claims of any kind) of their own service or the service of a relative, will have them promptly and properly attended to by addressing the subscriber, post paid Write full particulars

I have full copies of the muster rolls and records taken by myself, from the originals in the War Department in Washington, of nearly all who have done military service in this State which enables me to decide, at once, whether a claim is valid

Cash and the actual value, paid for Bounty Land Warrants

New Method of Cure!

B. F. HATCH, M. D,

Professor of Theory and Practice, Obstetrics, Diseases of Women and Children, in the New England College of Physicians and Surgeons,

Has discovered a new method by which he is able to treat

All Diseases peculiar to Females,

—ALSO—

GENERAL WEAKNESS,

with universal success, and a cure can be accomplished in much less time than any heretofore practiced by any physician in New England.

Dr H's method has never been equalled in point of PRACTICABILITY or SUCCESS, and how ever long standing the case may be or fruitless efforts may have proved the patient may confidently expect relief Hundreds of cases might be referred to, which would amply justify the above assertion

Consumption, Dyspepsia,

Diseases of the Spine, Liver, Heart Kidneys, Larynx Bowels Blood Skin all Nervous Difficulties Scrofula and Scrofulous Swellings Fever Sores, Hip Diseases, &c &c.,

are relieved in an incredible short space of time and with remedies which are in perfect harmony with the constitution

This great improvement in the cure of disease establishes a new era in medical science, and all who are in any way afflicted should avail themselves of its advantages

We do not feel disposed to publish a long list of cures, for no man no matter how ably prepared for the profession but what can boast of effecting cures and procure certificates of irresponsible individuals, but will give the opinions of editors who are conspicuous before the public

Prof J R Buchanan, in his Journal of Man says Dr Hatch is a bold but liberal reformer He is a graduate of the Eclectic Medical Institution, and is one of the most successful practitioners

Dr H is one of the most intelligent Physicians and deserves liberal encouragement for his skill and rare disinterestedness—*Christian Freeman*

The general reading of a work such as Prof H has published, would result in much public good, and we trust it may meet with a universal circulation—*Boston Daily Bee*

Dr Hatch is truly one of the most skillful Physicians of Boston—*Prof A W Daniels M D*

Dr Hatch may be found at No 15 Hayward Place, a few doors from Washington St Boston

Office hours from 9 to 12 A M and 2 to 5 P M

Patent Self-Heating SMOOTHING IRON.

THIS invention is rarely equalled for Economy, Convenience and Comfort. One cent's worth of dry hard coal is ample fuel for a day's ironing, avoids exhausting heat, and the change of irons gives a *better finish*, facilitates the work, and never sullies the linen. Its complete success warrants the prediction that it will soon be found in every family The attention of Merchants and Traveling Agents is invited to this Iron

Communications should be addressed to S JEWETT, St Johnsbury, Vt, agent for the Patentees in the States of Maine, New Hampshire and Vermont.

From the New York Observer—"Since noticing this ingenious invention last week we have seen it fairly tried: It works admirably. It will prove a great convenience to housekeepers in the saving of fuel and heat, as well as of time and labor"

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST embraces the denominations of *one two three four and five Dollars* These are distinguished by strips at the *right* ends of the notes, composed of *geometric lathe work* and running towards the centre the number of strips corresponding with the amounts of the notes Thus one strip for one dollar two strips for two dollars and so on, and upon the centre of these strips a large figure, readily seen, designates the denomination of each note In the class of notes, there are no borders on the *left* ends—which are occupied by vignettes and other work The President's name will be placed under and near the *right* end strip work on all notes of this class, and that of the Register or some other name above it thus protecting the strip work from alteration—no place being left for adding another strip either above or below the signatures

CLASS SECOND embraces the denominations of *ten, twenty fifty, one hundred* and *five hundred dollars* On these the whole arrangement is reversed The strips of lathe work (different from those used upon the other class of notes) commence at the *left* ends and run towards the centre the vignettes and other work being upon the *right* On this class the Cashier's name is placed under the strip work and that of the Register directly over it their names being separated by one strip on a ten dollar note by two on a twenty three on a fifty four on a hundred and by five strips upon a five hundred dollar note *presenting a perfect contrast between the two classes of notes*

Any person acquainted with the plan could not be deceived by any alteration of any one of these notes in either class, from one denomination to another The plan is a simple one and is comprehended almost at a glance, from an examination of the notes, for although so many lines are required to describe it in words the pictorial description is very short, and easily understood and remembered

The inventor JAMES A WALKER, Esq of New Haven, Conn has secured his invention by caveat as entered at the Patent Office at Washington and has made an arrangement with DANFORTH WRIGHT & CO, exclusively, for its use upon Bank Notes

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan a very great security against *counterfeiting* is also afforded by the fact that one of the *geometric lathe work* of which the borders are composed and which cannot be successfully imitated or even with any other *machine* except with the *greatest*

Whig and Courier.

John S. Sayward, Editor.

MONDAY, JUNE 20, 1853.

☞ The Eastport Sentinel is very much dis- [illegible] we did not answer its objections to our [illegible], nat it is the duty of the citizen to [illegible] the laws of the land, in just the mode [illegible] it pointed out, in a critical reference to [illegible] and phrases, and by categorical answers. [illegible] have no reply to offer to its dissatisfac- [illegible] displeasure. We endeavored to dis- [illegible] the subject and to set forth the principles involved, leaving every one to apply the sub- [illegible] to special cases. We are willing to abide [illegible] result.

[illegible] here are men in our world who delight in [illegible] ranging every thing into the form of a syllo- [illegible] gism, and, o hear them talk, one would sup- [illegible] pose them willing to break the world's back on [illegible] antiquated form of a syllogism.

[illegible] have no taste for indulging this sort of [illegible] people with any of their gimcracks. Our [illegible] readers [illegible] chiefly with a practical, common sense [illegible] [illegible] accustomed to reason by the modern [illegible] method of induction, rather than by the old [illegible] ing style of syllogism, and we shall en- [illegible] deavor to speak of matters and treat of them, [illegible] as they are, even if it shall be made to [illegible] appear that the world in its conduct and busi- [illegible] ness and thought, is not as good as it should [illegible] be. There is a standard of duty and of right [illegible] for the citizen, another for the regenerate man, [illegible] even seeking christian. As the world [illegible] sets [illegible] its own standards, whether right or wrong, [illegible] are acknowledged and acted upon, and what [illegible] we have to do is to persuade every man to act [illegible] from the highest motive he has and the best [illegible] use he possesses, and never suffer himself in [illegible] any conduct to fall below the law.

[illegible] Henry Ward Beecher says that if the law of [illegible] love were applied to the business of men, the [illegible] world would be filled with barrels of flour, bank [illegible] notes and other property, flying from those [illegible] who hold them, to their rightful owners. Per- [illegible] haps some one may get exasperated because [illegible] we do not thus fly!

[illegible] thets of the Sentinel only serve to [illegible] show one of the coinage of words, or the re- [illegible] vival of those coined by others. The [illegible] satirical style is an adjunct of the syllo- [illegible]

COURT DRESS. Mr. Secretary Marcy has published certain instructions to diplomatic agents of the U. S. abroad, in which he directs them to practise all the simplicity of manners and dress in their intercourse with foreign governments, that the customs of the country and the interests of the U. S. will allow. He objects to the employment of foreigners as clerks and assistants in legations, considering them as [illegible] unsafe depositories of the secrets of our government, and threatens immediate dismissal from office, where the despatches of this government are submitted to such inspection.

There is doubtless good reason for the exercise of greater simplicity in the style of living [illegible] at home and abroad. But the fashions of the [illegible] are against it. The desire to make an impression and acquire an influence is so great, [illegible] officials are not slow to resort to any dic- [illegible] tation of fashion, to any tax upon the purse, to [illegible] any personal sacrifice to effect the object. It [illegible] will be exceedingly difficult for any officer of the United States to a foreign Court to main- [illegible] tain a position against all the machinery of [illegible] show and the demands of fashion in his style [illegible] of living and in dress and equipage in attending [illegible] Court occasions, but it is hoped that the [illegible] people of the government at home if sustained [illegible] by example may aid our officials in repre- [illegible] senting republicanism in a simple and republi- [illegible] can manner. To do this will require a sacrifice [illegible] of personal comfort and official influence for a [illegible] time—the charge will be in opposition to the [illegible] despotism of conventional fashion—but if [illegible] manfully entered upon and fairly persisted in, [illegible] greater comfort and influence will come at [illegible] last, as the United States is a power on earth [illegible] whose influence and good offices upon their own [illegible] terms, will be sought.

[illegible] There is in government circles and in the pri- [illegible] vate life, from the wealthiest to the [illegible] poorest, a growing rivalry of extravagance and [illegible] display which is a disgrace, and which is eating [illegible] the vitals of prosperity and personal honor [illegible] and substantial respectability. It leads to vari- [illegible] ous frauds, dodges, forgeries and other crooked [illegible] practices in business and which in their ag- [illegible] gregate staggers the mind by the amount.

[illegible] We have little faith in the effect of the in- [illegible] structions given—not because they are unrea- [illegible] sonable or out of place, but on account of the [illegible] ridiculous fashions of this age. We are glad, [illegible] however, to have the attempt made, as it points [illegible] in the right direction and the next movement [illegible] will be to have men appointed of sufficiently [illegible] large capability of mind and fullness of qualifica- [illegible] tions for their duties that they can afford to dis- [illegible] pense with machinery and all the scaffoldings [illegible] of fashion and conventionalism are so busy [illegible] building around little folks.

☞ The People's Press is wordy without [illegible] making any progress in its issue. To bandy [illegible] words with one who skulks from its logical [illegible] issues is a poor employment and can afford [illegible] no amusement as we have no taste for such [illegible] a game. Whenever it will undertake to [illegible] discuss the propriety of the nomination of [illegible] Anson Eaton for sheriff of this county, we [illegible] are ready to meet it. The Press in lug- [illegible] ging the commendation of the Rockland pa- [illegible] per the appointment does not commit itself [illegible] to the same doctrine, and very reasonable be- [illegible] cause that would involve a difficulty as to the [illegible] withdrawal of that nomination. The Rockland paper jumped at the bait but didn't see the [illegible] hook.

[illegible] The St. John papers mention the arrival of a party of engineer, under A. C. Morton, for the purpose of surveying, and locating the railway from St. John Westwardly to the American frontier at or near Calais under the direction of Messrs. Peto, Betts, Brassy and Jackson, the contractors with the Province. The survey had commenced, and no time would be lost in locating the road to Bangor.

People should understand that it is cheaper and in every respect much better, to look up neglected children, and educate them, than to hang them when older.

NORTH BRITISH REVIEW FOR MAY, 1853. Leonard Scott & Co's reprint of this able quarterly, has been received. It is, as usual, a rich number. The leading article is Macgillivray's British Birds, an able and highly interesting article. There is a massive and masterly review of Bunsen's Hippolytus, together with other papers, among them, Ruth—the Reign of Female Novelists, Memoirs of French Protestantism, International Relations, Life under an Italian Despotism, Glimpses of Poetry, Instruction in Scotland, Wellington in the Peninsula, and Layard's Assyrian Discoveries.

This, together with the leading British Quarterlies, are furnished promptly, and at low rates, by this enterprising publishing house.

☞ They have a summary way of dealing with workmen's strikes in France. The authorities manage to arrest and incarcerate the ringleaders, and to disperse their followers with a caution.—Six English brick-makers were thus imprisoned near Lisieux for leaving their work in consequence of more being required of them than was specified in their contract. They were released after having been confined twenty-four hours, with a severe lecture from the sub-prefect.

It is intended that the opening ceremonies of the Crystal Palace in New York, about the middle of of July, shall be grand and imposing. The President of the United States and the heads of departments will be present on the occasion, beside many other high and distinguished men from all parts of the world. The work is certainly progressing with the greatest celerity and no exertions are spared to hurry it forward.

Some farmers, when their fruit trees are "bark-bound," slit the bark up and down with a knife. This is bad management. The bark where the slit is, ever after remains thin and at last peels off and kills the tree. The better way is to loosen the soil about the roots, and spade or fork in manure that the tree may receive nourishment: scrape off the moss and leave the bark to take care of itself.

☞ The Boston Journal says that the unfavorable complexion of foreign news by the Asia had a wilting effect on the Stock market. The Bank of England, it appears, has raised its rate of interest to 3½ per cent, a measure which has been feared for some time past, in view of the constant drain of coin from England. From the continent the intelligence continues warlike

☞ The Eastern Journal says three human skeletons have been exhumed by the workmen engaged in digging the foundations for the Gas Works at Saco. One of them was of very large proportion, and appeared to have been buried in a sitting posture. They are, probably skeletons of the aborigines.

Plato says there is nothing so delightful as the hearing or the speaking of the truth. For this reason there is no conversation so agreeable as that of the man of integrity, who hears without intention to betray, and speaks without any intention to deceive.

The Melbourne *Argus* contains a very elaborate table of the yield of the gold fields in the Victoria colony alone, for the past year. The total amount raised from the mines during the year 1852, is set down at 4,176,247 ounces, valued at about *seventy millions of dollars*.

It is a mistaken idea to think that feathers conduce to happiness, whether they be in the cap or pillow. A straw tick will bring it out about as soon as anything. Be industrious and you are sure to sleep sound.

☞ Strawberries are very abundant in New York, and retail at the rate of five baskets for ninepence. The genuine article from the fields in this vicinity have made their appearance in this market.

☞ We learn that the steamer Governor, with passengers for Boston via Portland, will leave at 4 o'clock. this (Monday) afternoon, arriving in Boston Tuesday noon.

A proposition has been made to try the experiment of an iron pavement in New York.

"Don't rob yourself," as the farmer said to the lawyer who called him hard names.

From Havana.

New York, June 16.

The steamship Black Warrior, from Mobile, via. Havana, arrived here at six o'clock this evening, bringing 109 passengers. Her dates from Havana are to the morning of the 12th. She confirms the landing of 1,100 slaves on the south side of the Island from the ship Lady Suffolk; after the slaves were landed, the vessel was scuttled and sunk. Several thousand slaves have been landed on the island during the past six months.

No political news of importance is received.

A Spanish war steamer was being hastily prepared for some secret service. Two British steamers were in port.

The sch. Cora, which was a prize to the Buzzard, has been declared illegally captured.

The publication of the *Chronica* newspaper is soon to be abandoned.

The weather was oppressively hot.

The cholera was raging fearfully on some of the estates in the interior.

The small pox was committing great ravages at Matanzas and some other towns.

The University excitement had not ceased.

WASHINGTON, June 15.

The motion for a new trial in the case of Woodward, convicted of murdering his wife, was argued to-day, and refused. Judge Crawford then sentenced the prisoner to be hung on the 2d day of September next.

In England a recent act of Parliament has limited all roads to a speed of thirty-five miles an hour, affecting roads which have formerly made sixty or seventy miles.

Commander Lynch, who went on a preliminary expedition of observation to Africa, has returned having explored all the rivers on the Liberia coast and found none navigable higher up than twenty miles from the mouth.

Boston Post.

Don't forget to mulch the trees planted out this spring whether fruit or ornamental. There is no surer protection against dry weather or a want of moisture, and no better promoter of their growth.

"Bill," said one apprentice to another, "my master is a better man to work for than your old man. My master ain't always going round his shop interfering with his own business."

WOMAN'S RIGHTS—BEGINNING OF THE MILLENNIUM. The millennium of woman's rights has been opened down East, among the enterprising inventors of the prohibitory Liquor law. The people of the Eastern district in Lincoln co. Maine have chosen a lady for register of Deeds, in place of Hezekiah Coombs, deceased. The election was held on the 30th ult. The returns show the election of Miss Olive Rose, of Thomaston, formerly an assistant to Mr. Coombs! Whether a female is eligible to such an office, under the laws of Maine, is a question to be settled. Annexed is the vote:—

	Miss Rose. (Soft Shell.)	Sylvester. (Hard.)	Scat.
Thomaston,	121	6	3
Rockland,	131	164	27
S. Thomaston,	67	8	—
Warren,	74	4	—
Union,	44	4	—
Cushing,	10	—	10
Friendship,	7	6	—
St. George,	23	7	—
Total,	469	203	40

Town of Washington to be heard from.

How charming! Miss Rose! What delightful associations cluster about that beautiful name! Who is there that has been touched by the melancholy fate of

"The last rose of summer,"

that will not rejoice in this first full blown rose of the season? Is not the name ominous of a better and brighter day for woman's rights over the length and breadth of the land? To be sure it is. And let the unmanly clod-hopper judges of the Eastern district of Maine pronounce Miss Rose ineligible if they dare!—They will rue the unlucky day as long as they live. This election is the beginning of the "good time coming."

"Prophets and saints desired it long,
But died without the sight,"

Shall not this rosy example be followed up all over Maine, all over New England, all over the whole Union, in behalf of woman's rights—her equal, inalienable, incontestable, and imprescriptible rights—to a fair share of "the spoils?" Verily, it must and it will be followed up. The day may come when Miss Rose will be regularly nominated candidate for the Presidency of the National Woman's Rights Convention at Baltimore. Only think of that! Keep the ball moving. Yes, most truly, "there is a good time coming."—[N. Y. Herald.

Commercial Integrity.

A great and growing evil, and we may say, the great evil of the times, is the lack of integrity among business people—tradesmen and mechanics—in regard to business transactions; especially the payment of bills, notes, drafts, &c. Too generally, 'I promise to pay,' amounts to little more than granting the holder the privilege of suffering the mortification of being unable to meet his own obligations from a wallet full of dead papers. This disregard of promises is generally more the result of habitual carelessness than intentional dishonesty, but is not the less censurable, and none the less injurious in its tendencies. The evils of this recklessness are too well known to need repetition, and have been felt by every business man who has attempted to make a payment requiring more money than his wallet contained. But bad as its effects are among business men, it bears no comparison to the evils experienced by the mechanic. The profits of labor to the laborer are small, and to withhold even a small proportion of his earnings, is to seriously embarrass him. The mechanics with families are few who succeed in laying by much of the year's earnings—pretty generally all is swallowed up in expenses. They need all they earn, and when they earn it, should not be suffered to be kept out of it, and be compelled to pay twenty per cent. expenses for collecting.

It is too much to hope that a radical change will be wrought in the business world, in regard to the evils we speak of, while the credit system is looked upon with so much favor. So long as men sell on credit, they will be compelled to ask credit when they buy, and so long will they too often be unable to meet their obligations promptly as they should. The most that can be hoped for now is to make a beginning of a reformation, by urging men to make greater efforts to meet their obligations, and contribute to create a more general regard for business obligations. Let every man make an effort to pay when called upon, and if payment is not possible then, don't wait to be called upon again and again, but make an effort to obtain the means, and go and pay it without being again dunned.—Hunt's Magazine.

C. M. Hovey states in his Magazine of Horticulture, that a new seedling grape has been produced from a native vine, fully equal to the Isabella, and ripening at least a month earlier than that variety. He received specimens of the fruit as early as the middle of September, which were the very last of the crop. The berries were round, black, and covered with a dense bloom; bunches as large as those of the Isabella; skin thin; flesh tender, with scarcely any pulp, "exceedingly sweet and delicious." The vine is hardy, vigorous, and productive. The vine will probably be secured in the hands of a few, and in due time be offered to the public, who of course make some allowance for the charms which novelty throws around every new horticultural production. Should this prove nearly as valuable as is hoped, and the same result be verified of Dr. Valk's new seedling, and Longworth's newly discovered hardy foreigner, we shall soon have quite an addition to our list of valuable varieties.

The wool clip of Maine will fall short in amount, from former years. The short crop of hay throughout the State last year, and the demand for mutton together, caused quite a diminution of the flocks.

The price of wool ranges higher than it has for many years, in consequence of the diminution of sheep in Australia, and other parts of the world. Our manufacturers complain, that the manufactured article—the cloth, does not rise in proportion to the raw material. On this account some of the smaller establishments have, or will suspend operations. One reason why the cloths do not rise in price proportionally with wool, is this; a large amount of cheap woolens, some of them half cotton, are crowded in upon us from Europe.

Maine Farmer.

Make the kitchen attractive and pleasant by all means. How absurd to keep one room in constant state, as it were for the pleasure of a few chance callers or a few party going friends! We wish no further evidence of a bad housekeeper, than to see her 'parlor in full dress her kitchen down at the heel, and her chamber in confusion. Make your home-place the most agreeable, or if your many duties allow not time to attend as thoroughly as you would wish, to its adornment and refinement, throw open the doors of your best room, and let your family enjoy it. Pray who should if not they.—Boston Mail.

SORREL. The presence of this production in grass we are not permitted to call it is always to be considered as an indication of a lack of calcareous matter, for where the lime in the soil is not deficient, sorrell will not grow. On all light, silicious lands, lime has consequently been found a most useful article, and its application invariably attended with highly favorable results. And just in the ratio of its use, whether as in compost or in its natural state, so far as our information extends, has been the diminution of the sorrel crop.—N. E. Farmer.

NEW YORK, June 15.

The upper story of the American Hotel, corner of Broadway and Bayley street, was destroyed by fire this morning.

Written for the Whig and Courier.

THE CEMETERY.

Softly pass the home of the dead,
Silent the grass grown pathway tread,
For there, loved-ones in silence deep,
"Have lain them down in their last sleep."

The young and old lie side by side,
The infant child; its parent's pride,
The aged, and the youthful fair,
Are found together, lying there.

'Tis the garner of the flowers of earth,
The gems of love from the household hearth;
Where the loved and loving, all will lie,
When God commands that they shall die.

When the wings of death our darlings brush,
And their prattling tones in silence hush;
Then in its solemn quiet space,
Their loved remains, we, weeping place.

Love's hand hath planted many a flower,
The graves of lost friends, to embower;
But their leaves and blossoms droop and fade,
Like the lives of those, whose graves they shade.

Step softly then as o'er their graves,
The wind, the tall grass, ever waves;
For in silence, we lay them down to rest—
Leave them in quiet, the loved—the blest.

NELLA A. P.

Bangor, June, 1853.

Married, on the 10th ult, in Kennebunkport, Me., by Rev. C. W. Heywood, Miss Amanda Mann to Mr. A. R. Nott, all of Kennebunkport. The following poetical correspondence is said to have actually passed between the above named couple, and to have been the bona fide "proposal" and "reply." The fact that they were known to be inveterate punsters, makes the statement more probable. The last stanza, we presume, was added by our correspondent.—Boston Post.

NOTT TO AMANDA.

Oh, that I could prevail my fair,
That we unite our lot!
Oh, take a man, Amanda Mann,
And tie a "double knot."

Your coldness drives me to despair—
What shall I do? oh *what!*
For *you* I'm growing thin and spare—
For *you* I'm a "*spare* Nott."

If I should hear that you had died
'Twould kill me on the spot—
Yet, only yesterday I cried
"Ah! would that she were Nott!

The "chords" and tendrils of my heart
Around thee fondly "twine"—
Amanda! heal this aching smart!
Amanda, oh be mine!

These very terms, as I opine,
Suggest united lots—
Let's tie them, dear, these 'cords' and 'twine'
In *hymeneal* knots.

Miss Amanda Mann's Reply.

This life, we know, is but a span,
Hence I have been afraid
That I should still remain A. Mann,
And die at last—a maid.

And often to myself I say
On looking round, I find
There's Nott, a man in every way
Just suited to my mind.

I fain would whisper him, apart,
He'd make me blest for life—
If he would take me to his heart
And make A. Mann a wife.

Love not, my mother often says,
And so, too, says the song—
I'll heed the hint in future days,
And *love Nott* well and long.

Then oh! let Hymen on the spot,
His chain around me throw—
And bind me in a lasting knot
Tied with a single beau!

And now I give myself to you,
And thus unite our lots—
Then tie those "cords and twine" into
A dozen little Notts.

LECTURE ON YOUNG IRELAND!

Agreeable to the request of the citizens of Bangor,

Thomas F. Meagher,

The distinguished and eloquent Irish Patriot, will visit this city and deliver a Lecture,

ON MONDAY EVENING, JUNE 20th,

—AT THE—

CITY HALL.

Subject—"YOUNG IRELAND; OR THE CAUSES OF THE FAILURE OF THE ATTEMPTED REVOLUTION OF 1848."

Tickets of Admission 50 cents

Doors open at 7 o'clock. Lecture to commence at 8 o'clock. Per Order.

☞ Tickets may be found at the following places:—Geo R. Smith's, E. F. Duren's, Patch & Lewis's, D. Bugbee's, M. Gilligan's, P. Wall's, Boyce & McKinnon's, and Dowling & Moran's.

Bangor, June 14, 1853 4t16

"I DIGEST!" Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No set of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox, in another part of this paper.

Oct 15, 1852. d&w&eowly

WHEREVER THAT GREAT MEDICINE called H. G. FARRELL'S CELEBRATED ARABIAN LINIMENT, has been introduced, it has performed the most extraordinary cures in the annals of medical history—every body who sees it once becomes its warmest friend—they not only keep it always on hand for the benefit of its friends use in cases of emergency, but recommend it to all their friends. It has been before the public for nearly ten years, and yet it is daily developing new virtues; many diseases have been cured by it for which the proprietor has never recommended it; its magical virtues spread through the land with the speed of lightning, and many, very many poor invalids, who had supposed their days on this earth were fast drawing to a close, have been by a persevering use of this invaluable Liniment HEALED, and now rejoice in the blessings of health, and the enjoyment of this beautiful world. Read this to believe, and not to doubt. Inquire of your neighbors, whom you know to have used it, and they will tell you that no medicine ever deserved possessed the half of its extraordinary healing powers.—The racking pains of rheumatism and neuralgia yield in a few minutes to its powerfully anodyne properties. "The lame are made to walk." Old sores, which have resisted all the subject a heathenish thing to withold, are healed. The weak and trembling from deranged state of the nerves, by the use of this Liniment, rejoice in the recovery of their former health and strength. Many long standing affections of the liver, lungs and kidneys have yielded to its use, after the various remedies had failed. It is very efficacious in curing the diseases of horses and cattle, such as sweeny, sprains, bruises, swellings, cramps, lameness, dry shoulder, spleet, etc, and if used in the beginning, never fails to stop the further progress of fistula, poll evil, ringbone and spavin.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith; without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 12 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the name H. G. before Farrell, thus—H. G. FARRELL'S—and his signature on the wrapper, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. F. Kinsell, Oldtown, French & Hamilton, Dexter, Geo. Parker, Ellsworth, P. O. Chadbourn, Calais. And by responsible authorized agents throughout the United States.

Prices 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, enclosing with good references as to character, responsibility, &c.

June16 d&w6m

New York, May 31, 1853.—The Directors of the Association for the Exhibition of the Industry of all nations, give notice that the Exhibition will be opened on the 15th day of July.

In making this announcement, the Directors avail themselves of the opportunity to state that the building which they have erected, and the Exhibition which they have prepared, will, they believe, fully meet the just expectations of the public.

It is proper that it should be known that, in order to afford ample scope for the inventive talent and skill of our countrymen in machinery and agricultural implements, we have increased the size of the building by adding nearly one fourth to its area, beyond what was originally contemplated, so that we have now for the purposes of exhibition two hundred thousand square feet, or nearly five acres.

Not limiting their plans to a display merely curious or attractive, the Directors have organized a department of mineralogy and geology in which some of the best scientific talent of the country has been employed, and the foundation is thus laid of a most valuable national collection of the mineral resources of the country.

The Directors had hoped to open the Exhibition at an earlier period, but the novelty and intricacy of the style of construction and the high standard of architectural beauty which it has been the object of the Association to attain, have produced delay, and it has been impracticable for the Directors, notwithstanding their utmost vigilance and their most earnest desire, to announce the opening at an earlier day.

In regard to the general character of the Exhibition, the result, promises to be most gratifying, and not unworthy of the confidence which has elicited a cordial response from the governments of foreign countries. It will, unquestionably, be the most attractive and interesting collection of the works of art, the results of science and the productions of industry, that has ever yet been made in this country, and will tend to increase the active emulation of the age in every branch of intellectual development.

The sole charge of the interior of the building, its division, arrangements, classifications and police, has been confided to two officers of the Navy of the United States, Captain S. F. Dupont and C. H. Davis; and the sanction of the government given to the employment of these gentlemen, who have so much distinguished themselves in the special services from which they have been employed, affords proof of the confidence reposed and the interest felt, by the highest authorities of the country, in the general objects of the enterprize.

These gentlemen have organized their department as follows:

J. M. Batchelder—Secretary of the Superintendent,
Samuel Webber—Arrangement of Space and Classification;
Prof. B. Silliman Jr.—Mineralogy and Chemistry,
B. F. Johnson—Agricultural Implements;
Joseph E. Holmes—Machinery,
Edward Vincent—Textile Fabrics,
Peter Piatti—Sculpture.

The Official Catalogues and the Illustrated Weekly Record of the exhibition are to be published in the building, by Messrs. G. P. Putnam & Co., under the supervision of the Association.

The Directors have sensibly felt the confidence reposed in them by their fellow citizens, in all parts of the country, and they will continue to make every effort to satisfy their just expectations.

LOVEJOY'S WAHPENE

Will, without doubt, change GREY HAIR to its original color, cure Baldness, remove all Scurf and Dandruff, and other diseases of the Hair and Scalp.

CAUTION

I caution the public against buying an article called "Improved Wahpene," for Lovejoy's. The said article has been got up, and the name "pirated," to deceive the public and injure the Proprietor of the true "Wahpene", thinking to sell under this spurious article under the wide spread reputation of Lovejoy's. GEO. W. EMERSON, Proprietor, No 4 Smith's Block, is my only authorized agent in Bangor, of whom the genuine Wahpene may be obtained, at wholesale or retail, at my prices. H. T. LOVEJOY, N. Y., Proprietor

DR. CORNELL'S PAIN EXPELLER

A VERY EXCELLENT ARTICLE, and one that gives universal satisfaction to those who sell or use it.

A fact—of the First Bottle used in Boston.

Boston, April 27, 1853

Messrs. S. D Fuller & Co—I had a severe attack of quinzy, and injured me very much. I used to bathe my neck with a bottle of your "DR. CORNELL'S PAIN EXPELLER," and it has charmed the whole complaint away and to-day I am well. It is certainly a good article.

R. G. EDWARDS, Printer at Rand's

For sale by G. F. SARGENT, Wholesale and Retail Agent, Bangor, and by Druggists generally.

Brick House FOR SALE OR RENT.

A convenient House, watered with a good aqueduct, and well supplied with soft water—in a central situation, yet peculiarly favored on account of trees, being over 150 ft on three sides from other houses, and on the fourth about 40 feet from a brick house; the lot extending on a cross street 216 ft—the back part of the lot is elevated, and is occupied with large grafted Fruit Trees, which have been for twenty years maturing and are now in their prime. The lot is supplied with large and beautiful shade trees.

More particular information can be given at this office. jn20 tf

Steamer at Auction.

WILL BE SOLD AT PUBLIC AUCTION on the FIFTEENTH day of JULY, at ten o'clock, in the forenoon, at PIER WHARF, in the city of Bangor,

THE PROPELLER STEAMER EASTERN STATE,

together with all her tackle, apparel, cabin, table, and galley furniture. Said steamer is of the following dimensions, viz: 165 feet long, about 25 feet beam, and ten feet hold, and is 389 tons register. Her engine is a very powerful one. She has two hay pressure cylinders, 30 inches diameter, 96 inch stroke. Also, two extra wheels, and her engine and boiler are in good running order, needing but trifling repairs. She has a poop cabin, which is finished in the most elegant style, with state rooms and berths to accomodate seventy-five passengers. She has a light upper deck, which extends forward to the starboard and forecastle, giving a large space between decks, in addition to her large hold, for the accommodation of freight. She will carry without incommoding passengers, equal to two thousand barrels.

Said boat is but sixteen months old, and has just been withdrawn from her route where she has been running since she was built, without losing a trip. With the exceptions she is in prime order for any business, having on board all the necessaries needed for the accommodation of passengers or freight.

Likewise, to close the concern, all the property of the Merchants Steam Navigation Company remaining on hand.

The sale will be positive. Terms of sale, one third Cash, balance on 6, 9 and 12 months, with interest, satisfactory paper.

For further particulars enquire of R. F. LOPER, Philadelphia, EMERY & LAMSON, Boston, or of the undersigned committee authorized to sell same as above.

Superior Shoulder Braces.

MANUFACTURED by Marsh & Co 212 Maiden Lane, New York The object of this Brace is to correct habitual stooping round and crooked shoulders, weak back and chest and preserve that erect and graceful position indispensable to health and beauty, expanding the chest, giving the lungs free and healthy action It is adapted to men women and children, of all ages occupations and condition, it is light, yet perfect in elastic and warranted to retain its elasticity, and beautifully adapted to the object designed The shoulder straps are so constructed as to give the main bearing on the point of the shoulder, are stayed so as not to wrinkle up and form a strap—are padded where they come under the arm thereby preventing that cutting under the arm so much complained of in other Shoulder Braces These Braces are not put together by machinery which are sure to rip, but are stitched together in the most substantial manner by hand
Also Marsh a Self Adjusting Trusses which have effected more radical cures than all others combined
Sold by GEO W EMERSON No 4 Smith's Block, Bangor, Me may9

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which is so nauseous to persons sensitive to it, is entirely overcome, and it can be taken by the most delicate, females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age

"Her disease was one of unmixed phthisic, which had been expected to terminate in the course of a few months, fatally The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent The patient was rapidly getting well."

CAUTION—Unlike count of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipe in the United States for combining the pure Oil with lime in a proper manner Therefore as you value your health, purchase none except that manufactured by

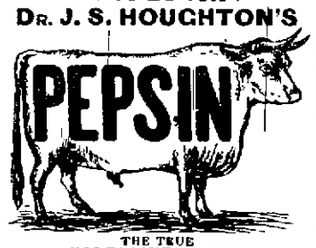
ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Extracted from RENNET, or the fourth STOMACH OF THE OX after directions of BARON LIEBIG, the great Physiological Chemist, by J S HOUGHTON, M D, Philadelphia, Pa.

"DIGEST" Such is the true meaning of word PEPSIN It is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress Beware of DRUGGED IMITATIONS. *Pepsin* is NOT A DRUG

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach

SCIENTIFIC EVIDENCE

The Scientific Evidence upon which this remedy is based is the highest degree Curious and Remarkable Call on the Agent and get a Free Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet, Dr John W Draper, of New York University, Prof Dunglison's Physiology, Prof Silliman, of Yale College, Dr Carpenter's Physiology &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER

Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar, sent to Dr. Houghton, Philadelphia.

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J S. HOUGHTON, M. D, sole proprietor, Philadelphia, Pa Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines—Price, ONE DOLLAR per bottle

To the readers of the Whig

Will you read the Truth.

A MEDICINE must have merit and great merit, too, to stand the test of public opinion No art of puffing can galvanize a worthless article so as to keep it alive as a *good medicine* if it be not really so

A good medicine will live become popular, and extend its sales year after year, in spite of opposition The people readily find out its virtues, and its fame passes from mouth to mouth with more rapidity than newspapers can spread it A living witness testifying to the cure that a medicine has made for him, is of far more service than any newspaper advertising

In proof of what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE, and its effects Its praise is in the mouths of multitudes The best men in our country give their testimony to its wonderful cures Among them we name Hon. Henry Clay, Hon Richard M Johnson, Vice President of the United States, with hundreds of others Capt Thomas Cannot—brother to the celebrated physician of the Emperor of France—was cured by it of a disease of seven years' standing after the skill of the doctors of Europe and America had failed

In the United States Navy it is taken with great success, several officers being cured by it, officers of the Department, Washington, speak of its wonderful cures

In fact, the rich and the poor, young and old, in every place, in the city and country, find the same success attends its use

HAMPTON'S VEGETABLE TINCTURE is purely vegetable and warranted free from all mineral substances This Tincture, by its mild, pleasant and safe action on the stomach liver, kidneys, lungs, and the nervous system cures Dyspepsia, Liver Complaint, Diseases of the Urinary Organs, Coughs Asthma Bronchial Affections, Consumption, Scrofula, King's Evil, Worms, Rheumatism, Gout, Neuralgia, St Vitus Dance, Fits, Nervous Affections generally, Fistula, Piles Bowel Complaints, with all diseases arising from impure blood As a remedy for the various derangements of the female system, it seems to have no superior

What we ask of the public, in introducing this valuable medicine is to throw aside their prejudices and give it a fair trial We shall publish in this paper from time to time testimony from persons whose reputation is known throughout the United States, and who have been entirely cured when other medicines have failed It is no *humbug* and the public will be satisfied that what we say is TRUE, after a fair trial

How the Discovery of the Vegetable Tincture was made.

DR HAMPTON, now in his 77th year, was early in life much reduced by disease, had spent much of his living to medical advice and grew nothing better, but worse, when finding that none of the mineral medicines could reach his case he came to himself and thought, why should I die with this disease when the Creator has provided in his vegetable kingdom that which will make me whole again? I will go and search out those roots and herbs which I have seen the Indians and the early pioneers use for the cure of disease, I will so compound them so increase or decrease the quantity of each until I get such a medicine as shall cure me of my disease The doctor carried out his noble resolution, brought to his aid the experience of the RED MAN, and all others from whom any thing could be learned of the healing powers of the roots of the vegetable kingdom In a short time, as by magic the Doctor was cured of his disease The fame thereof spread abroad, his neighbors sent for and near for this wonderful discovery which was freely given to them, and all partook with the same success until the demand became so great that the Doctor could not, in justice to himself and without great pecuniary loss, supply the demand grains, which induced him reluctantly by the advice of his friends to put a small price on his Vegetable tincture which was cheerfully paid, and considered but small indeed to the amount of good received by those who took his medicine—the most wonderful discovery in the healing art of the age

The world cannot produce Stronger Evidence

Than this kindly handed to us by J Stockbridge, Esq, of the Fountain Hotel Light street a gentleman extensively and favorably known The writer of the letter, Capt Cannot is the brother of the celebrated physician to Louis Napoleon, President of the French Republic Numerous of our most respectable citizens will give equally strong testimony in favor of

Hampton's Vegetable Tincture.

It is a most certain cure for Dyspepsia, Scrofula, Liver Complaint, &c, and all diseases from impure blood.

BALTIMORE, June 4 1851

Mr Stockbridge of the Fountain Hotel, Light st, Balt

Dear Sir—Being on the point of leaving the city, I avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my hands I beg you to send me four bottles more, to carry on my voyage Since I had the fortune to use Dr Hampton's Vegetable tincture my confidence is so strong that, in gratitude to the proprietors of the medicine I beg you to present my respects to them and induce them to make it more publicly known as a sure Rheumatic cure Having called on me, on the 19th of April last, and seen me prostrated on my bed useless in all my limbs you can appreciate nearly as well as myself the prompt relief I received from Dr Hampton's Tincture, and I am positive had it not been for your strong and forcible recommendations I should still have been in bed

It really a pity this speedic should not be appreciated by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations I myself who was always opposed to a patent specific, look this medicine with reluctance, and without confidence in it, and it was only through your disinterested friendly recommendation and my critical situation that induced me to try this really beneficial Vegetable Tincture

You may inform Messrs Mortimer & Mowbray, that they are at liberty to make use of my name in the support of the good effects of Dr Hampton's Vegetable Tincture, as it has cured me, in five weeks of a chronic inflammatory Rheumatism, contracted under tropical climates and of 7 years periodical duration I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance

I have been under the treatment of several physicians in London and Paris without any apparent benefit, also, while in New York having tried the Thompsonian and Homœopathic remedies after having been tormented with galvanic batteries, cold and aromatic baths, and hundreds of internal and external remedies, all to no effect, I am, so far, cured by this Hampton's Vegetable Tincture only Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well wisher,

THOS CANOT

Cure of Consumption, Neuralgia, Pain in Side, &c.

BALTIMORE, May 1, 1852

Messrs Mortimer & Mowbray —Gentlemen—It is with pleasure I can testify to the great healing powers of Hampton's Vegetable Tincture My wife had been afflicted for three years, laboring under a constant hacking cough, with a most violent pain in the right side, neuralgia of the head, and dimness of sight, very little rest day or night, and much emaciation, and to all appearances a rapid consumption inevitable We had the most eminent physician in Annapolis but his medicine did not give her any relief at all but growing worse at any change in the least; and having read one of your pamphlets, in July last, she concluded to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better, her appetite improved, her skin became quite clear, cough, pains neuralgia, &c, entirely left her, and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of excellent health

Respectfully, EDWARD SANDS,

Master of sch Gen. Barber, Annapolis Packet No 3, Tobacco Warehouse, Light Street Wharf.

Hear Him, ye Sick!

No Medicine but Hampton's Vegetable Tincture ever had such a mass of Testimony

HEALTH FOR THE STATES!

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION, AND DETERMINATION OF BLOOD TO THE HEAD

Extract of a Letter from Mr John Lloyd, of Erwen near Harlech, Merionethshire

To Professor HOLLOWAY,

Sir,—I avail myself of the first opportunity of informing you that for a very long period I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by loss of appetite, disordered stomach, and generally impaired health Every means had failed to give me any permanent relief and at length it became so alarming that I was really afraid of going about without an attendant In this melancholy condition I waited personally upon Mr Hughes, Chemist, Harlech for the purpose of consulting him as to what I had better do, he kindly recommended your Pills I tried them without delay and after taking them for a short time I am happy to bear testimony to their wonderful efficacy I am now restored to perfect health and enabled to resume my usual duties You are at liberty to publish this letter in any way you may think proper

I am sir, your obedient servant,

June 6 1852 [Signed] JOHN LLOYD

MIRACULOUS CURE OF DROPSY

Extract of a Letter from Edward Rowley, Esq of India Walk Tobago, dated April 8th, 1852

To Professor HOLLOWAY

Dear Sir—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease DROPSY and which, under God was effected by your invaluable Pills I was tapped five times within eight months, and skilfully treated by two medical practitioner, but could not get cured until I had recourse to your remedy, and notwithstanding all I had undergone this miraculous medicine cured me in the course of six weeks

(Signed) EDWARD ROWLEY

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION & VIOLENT HEAD ACHES

Extract of a Letter from Mr S Gibson Chemist of Clifton near Bristol dated July 14th, 1852

To Professor HOLLOWAY

Dear Sir—I am requested by a Lady named Thomas, just arrived from the West Indies to acquaint you that for a period of eight years herself and family suffered from continual bad health a rising from the effects of the Liver and Stomach Indigestion, loss of Appetite violent Head aches pains in the side, weakness and general debility for which she consulted the most eminent men in the colony but with at any beneficial result at last she had recourse to your invaluable Pills which in a very short time effected so great a change for the better that she continued them and the whole family were restored to health and strength Further she desires me to say that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina having effected positive cures of these diseases with no other remedy (Signed) S GOWEN

These celebrated Pills are wonderfully efficacious in the following Complaints

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhœa, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds, are magical Persons troubled with Cramp in the Stomach, Side, or Bowels, Sore Throat, Piles &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure. The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendations, as it has done for forty years past We ask no man to use it after no satisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of years with a distressing cough, and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption. My lungs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me, and by the use of three or four bottles I was entirely cured, and have since been able to labor every day. I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of the complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN T. ATKINS.

Brower, Sept. 29, 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was restored and strengthened, and for a number of years I have been able to use it about as well as the other. I consider myself indebted to the use of your Liniment, through the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it, and no doubt you will be cured.

RUFUS CHAPMAN.

DR. MORSE'S

INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINANCE, OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude*, and *General Prostration*, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES; It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite renew the health of those who have destroyed it by Sensual Excesses, or evil practices It has been said by some that these disorders, emissions, &c, were incurable This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the utmost received will conclusively show

Dr Woodward of the Massachusetts Insane Hospital, writes of one of the patients being cured by using this cordial thus—I gladly embrace the opportunity to inform you that one of my patients, while in ill health procured some of your Cordial He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week When he applied to me, says Dr W I thought it hardly possible for me ever to regain a healthful strength I prescribed the usual medicine used in those cases in the hospital, but they had no effect In the meantime he purchased some of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend whenever an opportunity occurs"

The nature of the maladies relieved by this Cordial are generally such as to leave the public in fear of certificates of cures, but if the question is still the proprietor could produce them in any number of unexceptionable testimony to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and invariably immediate virtues In all disorders where it is found the happy parents of healthy offspring, who would not know so but for this restorative preparation And it is equally potent in many diseases for which it is recommended

THE MEDICAL JOURNALS have not in a single instance that has been authentically given their sanction to any other preparation for the above complaints It has, in many violent and desperate cases, effected radical cures after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is "I had heard your Cordial highly spoken of, but was one of the incredulous to regard it as more than having used various medicines and tried the same purge so differently prescribed (as I say) without deriving my benefit I had almost given up all hope of obtaining relief when I purchased some of your Cordial I had no faith whatever of its benefiting me—but thus I feel stronger have but no emissions since I took it and three weeks I am satisfied the Bridge is now built over the Styx"

Another says—"I had consulted several eminent Physicians in vain and I could not be cured unless I procured a thing, and that but I found your action of Cordial cured me"

Another says—"I was cured, tired of the effect your Cordial had Why had I not heard of it before I would have saved much time and money, be sides years of misery"

CAUTION—Ask for Dr Morse's Cordial and take no other as there are worthless imitations which are unrivalled excellence from its popularity have been put into the market In which Cases the interest demands male but do get a B ware of all other Cordials, &c, (and say only this)

NOTICE Persons conscious of physical incapacity from causes above name may confidentially consult Dr Morse personally or by letter (post paid) at his office 37 Cortlandt street N York The interests advice and attention for the speedy removal of such disability will be duly rendered to the writer's address

Dr Morse is prepared to warrant a perfect cure in every case or take no pay

Prepared by Dr Morse M D, New York city
